PLACES OF SERVICE

This list represents a limited number of suggestions based on the previous volunteer experiences of TCHS students. Students have the option to count six (6) hours of service given to TCHS by participating in an approved school project.

Each organization or institution has specific requirements. Also, please refer to the handbook published by The Volunteer Center which can be accessed on their website at [The Volunteer Center](#). Choose the "Volunteer" button at the top of the page and then the center drop down for "Find Agencies." You can narrow your search by town, company, etc. and read a description of volunteer opportunities for each.

** Parents and students should visit and acquaint themselves with any place of service before committing to a volunteer experience.*
